ATV TYRE SIZING EXAMPLE:

HEIGHT x WIDTH x RIM DIAMETER

25 x 8 x 12

Overall height of
tyre (in Inches)
when inflated

Overall width of
tyre (in Inches)
when inflated

Diameter of rim
(in Inches) this
tyre will fit

CHANGING TYRE SIZES

- (1) Ensure your machine has enough clearance to do so.
- (2) 4WD owners who fit either larger or smaller height tyres must ensure they do so in equal + or - increments front & rear to avoid diff bind.

VIPER ULTRA 12 PLY

RUN FLAT

- Developed for US Military use
- Non-Directional Tread Pattern
- Premium Rubber Compound
- Sidewall Protection

An ultra premium rubber compound is infused into the bias constructed carcass, to create an incredibly durable tyre that is soft enough to grip hard surfaces while still offering exceptional tread life. In addition to being virtually puncture proof, this tyre features an ultra-stiff sidewall with almost no flex. Incorporating elements of run flat technology in the design, the tyre will actually maintain its rigidity without any air in it. That means in the rare event that you puncture one, you won't have to worry about being stranded.

- 12 Ply
- Ultra Stiff Sidewall
- Can run with no air
- Over 20mm Tread Depth

SUN-F A-027 6 PLY
SPORT QUADS

Front from **\$92.95** Rear **\$124.95**

Features a 6ply rating for extreme durability and puncture resistance. Competition race compound provides you with the grip you need to stay ahead of the pack. With deep angled tread for improved steering and braking capabilities, you can depend on the A-027 to get you over the finish line.

Suitable for any terrain you can throw at it. The Sun-F A-027 tyre is by far the most popular race tyre available, and wipes the floor with similarly priced 4 ply copies out there.

Part #	Product	RRP
8001395	21x 7.00-10 (6) A027	\$92.95
